

Nandbox SoundCloud Downloader

Guide: Updating Client Id

In the Soundcloud Downloader Bot, the search and download requests require a **client_id** parameter to be set to authorize the request. The client id that is updated regularly.

Steps to update **client_id** in the bot:

1. Open any track page on soundcloud. Open the Network Tab in Developer Tools. Copy the client id from the request url.

2. Set **CLIENT ID** in index.js.

```
Terminal  Help  index.js - soundcloud-bot-nandbox - Visual Studio Code

JS index.js  X
JS index.js > msToTime
7  const Id = Utils.Id;
8  const Button = require("nandbox-bot-api/src/data/Button");
9  const Row = require("nandbox-bot-api/src/data/Row");
10 const Menu = require("nandbox-bot-api/src/data/Menu");
11 const OutMessage = require("nandbox-bot-api/src/outmessages/OutMessage");
12 const MediaTransfer = require("nandbox-bot-api/src/util/MediaTransfer");
13 const sc = require("../utils/sc");
14 const fs = require("fs");
15 const AudioOutMessage = require("nandbox-bot-api/src/outmessages/AudioOutMessage");
16 const scdl = require("soundcloud-downloader");
17 const CLIENT ID = "0gk6cWfXRJcIGpDjYPiqm0zXGM6O6cLx";
18 const TOKEN = "90091783959388392:0:YmBSQhUzk0I5NB2Wrud8hYiUzuWuR6";
